INDEX

A

Abel, M., *see* Lipton, R., 736
Acetyl-beta-methylcholine in human subjects with localized lesions of the central nervous system, The effects of, 371
Adrenal cortex and on the excretion of 17-ketosteroids in hypertensive patients, Studies on the morphology of the, 212
Agglutination-inhibition test in studying an epidemic of influenza, Use of an, 494
Albright's syndrome (osteitis fibrosa disseminata, areas of skin pigmentation, and endocrine dysfunction with precocious puberty in females). Report of a case. Diabetes mellitus associated with, 35
Alloxan diabetes in the rabbit. A consideration of the morphologic and physiologic changes, 450
Anderson, D., *see* Oliver, C., 597
Anderson, T., A bacteriolytic substance contained within a purified bacterial virus, 809
Anderson, T., *see* Lilly, J., 135
Androgen hormone. The endocrine factor in homosexuality. Report of treatment of 4 cases with, 176
Amyloidosis, The value and limitations of the Congo red test for, 305
Amyotropic lateral sclerosis, Primary and symptomatic, 70
Antine, W., *see* Sachs, J., 633
Aortic bodies, The clinical significance of the carotid and, 681
Armstrong, C., Carnes, W., Obstruction of the hepatic veins (Chiari's disease). Report of five cases, 470
Army psychiatrist, Orientation of the, 154
Arterial blood, Factors affecting the determination of oxygen capacity, content, and pressure in human, 132
of man, The direct spectrophotometric determination of the saturation of hemoglobin in the, 135
oxygen tension, Normal human, 135
Arthritis, Purulent meningococcal, 708
Articular complications, Meningococcus infections with, 63
Aspiration biopsy of the thyroid in the evaluation of thyroid dysfunction, 736
Atropine group, A further study of the innervation of the pancreas—The action of drugs of the, 810
Auerbach, O., *see* Stemmerman, M., 305
Autonomic nervous system, The "Mega" syndromes. The common relation of the various manifestations to the, 602
Avery, N., *see* Lyons, R., 148
Axelrod, A., *see* Gross, P., 642
Aycock, W., Lutman, G., Preventive medicine and epidemiology: Vitamin deficiency as an epidemiologic principle, 389

B

Bacteriolytic substance contained within a purified bacterial virus, 809
Bailey, C., *see* Bailey, O., 450
Bailey, O., Bailey, C., Hagan, W., Alloxan diabetes in the rabbit. A consideration of the morphologic and physiologic changes, 450
Bausch, R., *see* Denny, E., 478
Bayles, T., Riddell, C., Plasma lipids in patients with rheumatoid arthritis receiving gold salt therapy and during pregnancy, 343
Bean, W., Spies, T., Vilter, R., A note on irradiation sickness, 46
Beerman, H., *see* Pariser, H., 547
Bellet, S., *see* Ehrich, W., 511
Bennett, A., Wilbur, C., Convulsive shock therapy in involutional states after complete failure with previous estrogenic treatment, 170
Binder, M., Klein, A., Concentrated red cell transfusions, 95
Black, W., *see* Darley, W., 381
Block, F., Cancer of the cervix, 794
Blood pressure in hypertensive rats, The effect of quinones on, 808
Bobb, A., *see* Fox, T., 201
Boger, W., Purulent meningococcal arthritis, 708
Bone marrow *in vitro*. II. The effect of hemoglobin and red cell stromata on explanted bone marrow, Studies on, 193
Bosse, M., *see* Gross, P., 642
Brandaleone, H., Main, E., Steele, J., The effect of calcium pantothenate and paraaminobenzoic acid on gray hair in man, 315
Brown, J., Schaub, I., The relation of streptococci to human disease: Importance of identification and nomenclature. I. The beta hemolytic streptococci of Group A, 385
Bruger, M., Rosenkrantz, J., Lowenstein, B., Studies on the morphology of the adrenal cortex and on the excretion of 17-ketosteroids in hypertensive patients, 212
Bruner, H., *see* Drabkin, D., 135
Burn trauma precipitating acute leukemia or a leukemoid condition, 490
Byron, C., *see* Wishnofsky, M., 361

C

Cancer of the cervix, 794
Capillary permeability in myxedema, 5
Carbon monoxide poisoning of dogs, Experimental chronic, 502

XUM

Cardiac arrhythmias in 1000 cases of pulmonary tuberculosis, 201
changes from CO poisoning, 511
Carnes, W., *see* Armstrong, C., 470
Carotid and aortic bodies, The clinical significance of the, 681
Cerebral blood flow in man by the use of nitrous oxide in low concentrations, The quantitative determination of, 809
Cervix, Cancer of the, 794
Cheney, R., *see* Shenkin, H., 421
(Chiari's disease). Report of five cases, Obstruction of the hepatic veins, 470
Chorioretinitis, Toxoplasmic, 255
Circulating blood *in vivo*, and the direct spectrophotometric determination of the saturation of hemoglobin in arterial dog blood, Spectrophotometric observation of, 133
Clagett, H., The Electrocardiographic changes following artificial hyperpyrexia, 81
Clinical diagnosis. Review of recent literature, Drugs used in, 661
CO poisoning, Cardiac changes from, 511
Commission on Acute Respiratory Diseases, Fort Bragg, N. C., Cold hemagglutinins in primary atypical pneumonia and other respiratory infections, 742
Comroe, J., Jr., Normal human arterial oxygen tension, 135
Comroe, J., Jr., *see* Dripps, R., Jr., 681
Congo red test for amyloidosis, The value and limitations of the, 305
Connolly, V., *see* Sophian, L., 577
Convulsive shock therapy in involutional states after complete failure with previous estrogenic treatment, 170
Crawford, J., *see* Florman, A., 494
Creatinuria in hyperthyroidism and in essential hypertension, 310
Crider, J., *see* Thomas, J., 810
Cysts, Pulmonary, 673

D

Danowski, T., Winkler, A., Obesity as a clinical problem, 622
Darley, W., Black, W., Smith, C., Good, F., Spontaneous splenic rupture in infectious mononucleosis. A case and pathologic report, 381
